www.rrc.ac.in

ABOUT THE COLLEGE

Rajapalayam Rajus' College, a Linguistic Minority Co-educational Institution, was established in the year 1973 by Palayapalayam Rajus' Mahumai with an objective of imparting quality education to the rural poor students in and around Rajapalayam area. The college was re-accredited with 'B++' Grade in IIIrd cycle by NAAC. The college is located in a scattered area of 52 acres of land in Mudangiyar Road and it is 3 kms away from Rajapalayam town. The college is converted into coeducational institution from the year 2012 - 2013. Now around 2400 boys and girls students are studying. The college offers 12 UG courses and 6 PG courses in Arts and Science. The college has excellent infrastructure and well equipped computer laboratories and library. The college Centres in History and has Research Centres Commerce.

ABOUT THE DEPARTMENT

The Department of Computer Science was established in the year 1993, with the objective of impacting quality education in the field of Computer Science. Even with rapidly evolving technology and the continuous need for innovation. The department has been produced quality professionals, holding important positions in Information Technology industry in India and abroad. The Department introduce bachelor of science (CS) programme that offered by Madurai Kamaraj University. The Department has started the Master of Science (CS) programme with the aim to develop core competence in Computer Science and has been prepared the students to carry out development work, as well as to take up challenges in placements. The moto of department is to equip the students based on the industrial requirements.

ABOUT ECRIO

Ecrio is the leading supplier of end-to-end communication software, essential for deploying 5G/LTE private networks. Ecrio offers a comprehensive suite of standards-compliant Edge Communication Server and Device Client Software, optimized to run as a Network-in-a-Box, on-premises, or in Operator MEC, via its FlexEDGE™ architecture. Ecrio's Edge solutions enable two-way interactive human-to-machine communication for command and control of drones, robots, and cameras in verticals such as defense, disaster response, and industrials. Ecrio's Device Client Software for phones, tablets, wearables, FWA gateways, XR, and IoT devices is built on the patented FlexIMS™ Architecture and has been deployed in over 100 million devices. Ecrio's Voice, Video, and Messaging solutions are 3GPP and GSMA compliant, supporting VxLTE, VoNR, VoWiFi, MCPTT, and RCS. For more information, please visit www.ecrio.com.

DAY 1

Dr.Krishnakumar Narayanan

**Technology Update on
AI Workloads, 5G & IoT**

DAY 2

Mr.Rajeshkumar Arjunaraja

**Database solutions in
Current Landscape**

DAY 4

Mr.Kaleem Mohammed

**Inside A Private 4G/5G Lab -
Hardware & Software Components**

DAY 5

Mr.Sreekesh L. Unni

**Preparing Students for
Product Marketing &
Management in IT**

DAY 3

Mr.Ragu Subbiah

**Voice/Video Calling over 4G/5G
for AI Workloads -
Standards Perspective**
